

Ten highest paying jobs in tech

I – Communication practice

Individually, prepare a short presentation of one of the following jobs in tech.

1. *Data scientist*
 2. *Sales engineer*
 3. *Data engineer*
 4. *Software developer*
 5. *Project manager*
 6. *DevOps engineer*
 7. *Security engineer*
 8. *Product manager*
 9. *Cloud engineer*
 10. *System architect*
-
1. On the slide file **.odp** linked on the web page, you will **transcribe** the excerpt of the video dedicated to this job and **translate** it, paying particular attention to the **punctuation**. Moreover:
 - each **sentence** should be written in a **separate cell**,
 - all the **numbers** should be written in **figures** (not in words).
 2. Afterwards, using the **Dice report** linked on the web page and web sites such as *Wikipedia*, you will prepare a presentation of **several slides** (maximum five) about this job, focusing on:
 - the main **tasks of the job** to be accomplished,
 - the **tech skills** it requires (software, languages, etc.),
 - **if** you would like to do such a job and **why** (or why not).
