Z-Wave versus *ZigBee* versus *Wi-Fi*!
Smart home basics: how to pick the right protocol

I – Communication practice

With your partners, prepare a short presentation of one of the following smart home technologies.

1. *Wi-Fi*

2. *Bluetooth*

3. *ZigBee*

4. *Z-Wave*

5. *EnOcean*

6. *KNX*

7. *Jeedom*

8. *Home Assistant*

9. *MQTT*

10. *Node-RED*

Each one of you will type and present one or two slides about one of the topics below:

- a *short history* of the technology (date of birth, creators…),

- its *main purpose*, *characteristics* and *last developments*,

- its *advantages* and *drawbacks* in comparison with other concurrent technologies.
